

Our service

For companies wishing to relocate or set up business in the borough, Allerdale Borough Council's Regeneration team can:

- offer advice and provide information about the borough
- provide introductions to intermediaries and agencies that can assist with the relocation process
- work with relocation and development managers to help make the business case for relocation
- organise familiarisation visits to Allerdale for relocation and development managers to view sites
- provide contacts within the Council to help with planning, building regulations, business rates and environmental health.

To discuss your relocation or business development plans, please contact the Regeneration team on 01900 702790 or email regeneration@allerdale.gov.uk

"Allerdale – a great place to live, work and visit"
